Intelligent Mobility

Available ProPILOT Assist can make highway driving less stressful⁷

Allows you to pace with the car in front of you, maintaining a set distance, while helping keep you centered in your lane. Even through slight curves. Can come to a stop automatically, and resume, without driver intervention.

e-Pedal Mode, a more natural way to manage traffic.⁶

Accelerate or brake in traffic, using a single pedal, easing traffic congestion. Come to a complete stop and hold, even on steep hills, without the brake pedal.

Safety Technology

Standard Automatic Emergency Braking⁸

It can apply the brakes automatically to help you avoid frontal collision, or if unavoidable, help reduce the severity.

Join us in making a difference.
